

PROJECT IDEA

HOW CAN I CREATE MY OWN INSECT?

Summary

This project is a Project-Based Learning (PBL) Unit designed for teachers to engage their students in learning about insects. Students will explore the world of bugs, develop their knowledge, and then apply it by creating their own insects. Through this unit, students will not only practice English but also gain an understanding of the incredible diversity of the animal kingdom.

Driving Question

How can I use my knowledge of insects to create my own insect?

Audience

Other students, parents

Goals

- To develop students' knowledge and understanding of insects.
- To enhance students' research and inquiry skills.
- To foster creativity and imagination through the creation of unique insects.
- To practice English language skills through reading, writing, and speaking activities.
- To cultivate an appreciation for the diversity of the animal kingdom.

Language Content

Present Simple. Have/Has. Verb To be. Physical Descriptions.

Vocabulary: insects, parts of the body

Other Subjects

Science.

PROJECT IDEA

HOW CAN I CREATE MY OWN INSECT?

Introduction to Insects

1. Let's talk about insects! Where do they live? What do they look like? What do they eat?
2. We'll read fun books about insects together.
3. Learn about insect parts and how they look.

Exploring Insect Habitats

Choose an insect to study and complete the information in the INSECT FACTFILE.

Insect Art and Creativity

Make your insect using clay, paper, or other materials.

Culminating Activity

Show your insect to everyone! Share what you made with your friends and teachers.
